BORN BUILDING - CHICAGO

The Home of Born Tailoring

TEN years ago, the demand for Born Tailoring compelled us to erect this immense twelve story plant—since then two additional shops have been established in the heart of the district from which we draw our best needle workers.

And yet, our capacity of half a million tailored-to-measure suits, yearly, does not satisfy the ever growing demand. We are now planning the erection of a plant twice the size of the present Born Building—by long odds the largest tailoring establishment in the world.

What does this mean to you?

Well, sir, it's pretty good evidence that Born Tailoring satisfies the men of America.

It satisfies the young man who demands smart style and perfect fit—it is equally satisfying to the substantial citizen who looks for long service at an economical price.

Born Tailoring will satisfy you—and save you money.
